4. FIRST-AID MEASURES

**Inhalation**
If inhaled remove to fresh air. If irritation or difficulty in breathing occurs, get medical attention.

**Skin Contact**
Wash skin with soap and water. Remove clothing and shoes if contaminated. Launder clothing before reuse. If irritation or rash develops, get medical attention.

**Eye Contact**
Flush eyes with water for several minutes. Remove contact lenses, if present and easy to do so. If eye irritation persists, get medical attention.

**Ingestion**
If conscious, rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention.

**Most Important Symptoms**
Causes eye and skin irritation. May cause allergic skin reaction. Inhalation of vapors or mists may cause respiratory irritation. Swallowing may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

**Indication of Immediate Medical Attention Needed**
Immediate medical attention is not required.

**Notes to Physician**
Treat appropriately

5. FIRE FIGHTING MEASURES

**Suitable Extinguishing Media**
Use water fog, foam, dry chemical or carbon dioxide (CO2) to extinguish flames.

**Specific Hazards Arising From The Chemical**
This material will burn although it is not easily ignited. Combustion will produce carbon and nitrogen oxides and unidentified organic compounds.

**Special Protective Equipment And Precautions For Fire-Fighters**
Firefighters should wear full emergency equipment and a NIOSH approved positive pressure self-contained breathing apparatus. Cool exposed intact containers with water.
6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: Wear appropriate protective equipment. Wash thoroughly after handling. See also: "Personal Protection" section 8.

Environmental Hazards: Avoid release into the environment. Report spill as required by local and federal regulations.

Methods/Materials for Cleaning up: Dike spill and collect with an inert absorbent. Place into closable containers for disposal. Collected material is handled in accordance with section 13 "Disposal Considerations".

7. HANDLING AND STORAGE

Precautions for Safe Handling:
- Avoid contact with eyes, skin and clothing.
- Avoid breathing vapors and mists.
- Wash thoroughly after handling. Remove oil-soaked clothing and launder before re-use.

Conditions for Safe Storage:
- Store in a cool area away from oxidizing agents. Protect containers from physical damage.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Limits:
- Castor Oil: None Established
- Modified Fatty Acid Ester: None Established
- Multifunctional Additive Mixture: None Established

Appropriate Engineering Controls:
- Good general room ventilation (equivalent to outdoors) should be adequate under normal conditions. If exposures are excessive, increased mechanical ventilation such as local exhaust may be required.

Personal Protection:
- Respiratory Protection: None needed under normal use conditions with adequate ventilation. If exposure limits are exceeded, use a NIOSH approved respirator with organic vapor cartridges and particulate pre-filter. Selection of respiratory protection depends on the contaminant type, form and concentration. Select in accordance with OSHA 1910.134 and good Industrial Hygiene practice.
- Eye Protection: Safety glasses or goggles recommended if splashing is possible.
- Skin/Body Protection: If there is a potential for skin contact, wear a long sleeved shirt and apron. Neoprene or nitrile rubber boots when necessary to avoid contaminating shoes.
- Hand Protection: Use nitrile or Viton gloves recommended to prevent skin contact.
